Vintage® SRI-19

Vintage® is an innovative coating process over a G-90 metallic-coated steel surface. The process creates shade variations from light to dark, the lighter shade exhibiting a grey tone while the darker shade exhibits a bronze or brown tone. The dynamic, pre-aged appearance makes this a beautiful and durable product choice that is also graffiti resistant. Vintage® comes with a 20 year warranty. Warranty can vary by environment, see TMP website for more information.

NOTE: Due to the coating process, Vintage® has a color range. Color can vary from batch-to-batch and have directional variations

Taylor Metal Products Cool Kynar 500®

All Taylor Metal Products Kynar 500® coatings utilize pigments that are specifically designed to reflect infrared light, help reduce the heat gain of a dwelling, and conform with ENERGY STAR® criteria for steep slope cool roofing products.

PVDF is a fluoropolymer that is manufactured under the trademarked name Kynar 500®. Paint finishes containing a **minimum** 70% PVDF resin meet the high-performance weathering criteria established by the American Architectural Manufacturing Association and are allowed to carry the Kynar 500® trademarked name.
