AIA Lunch and Learn presentation

Company ID: (40108057)

Course Theme: Building with Dissimilar Metals and Galvanic Reaction

Length: 45 minute presentation with 15 minutes Q&A

Learning Credit Units: 1.0 LU, HSW

Learning Objectives:

- Identify the key properties and applications of ZINCALUME®, Galvanized, Aluminum, and Stainless Steel.
- Explain the process and conditions that lead to galvanic corrosion between dissimilar metals.
- Evaluate the compatibility of accessory materials, including fasteners and other components, with various types of steel to prevent corrosion.
- Analyze examples of material interactions to understand the causes and prevention of premature corrosion in construction projects.

This training course is designed to be presented in person at your office. Let us know the best time to schedule this for your staff.
