Vintage® SRI-19

Vintage® is an innovative coating process over a G-90 metallic-coated steel surface. The process creates shade variations from light to dark, the lighter shade exhibiting a grey tone while the darker shade exhibits a bronze or brown tone. The dynamic, pre-aged appearance makes this a beautiful and durable product choice that is also graffiti resistant. Vintage® comes with a 20 year warranty. Warranty can vary by environment, see TMP website for more information.

NOTE: Due to the coating process, Vintage® has a color range. Color can vary from batch-to-batch and have directional variations. Due to color ranges, color matching of this product is not available.

Rustic Rawhide SRI-32

Textured Rustic Rawhide finish provides an unmatched color experience with an engaging combination of color and texture. This textured finish features multi-toned weathered metal design in conjunction with a wrinkled paint system for optimum authenticity. The design interacts dynamically with light to recreate the feel of traditional oxidized metal while minimizing surface sheen.

Supported by a robust warranty. This color pairs beauty and performance. Request your sample today to interact with the stimulating color.

Weathering Materials

These materials change appearance over time

Real Copper

16 oz. and 20 oz. Copper
(please inquire)

ZINCALUME® Plus AZ-55

ZINCALUME® Plus SRI-65

ZINCALUME® Plus AZ-55 is a 55% aluminum, 45% zinc metallic coating over steel. *No finish warranty – 25 yr. perforation warranty.*

Due to batch differences, color or spangle matching of this product is not available.

Galvanized G-90

Galvanized G-90 SRI-65
Metallic coating over steel. No finish warranty No perforation warranty

Rusteel Plus™ Finish

Rusteel Plus™ (A606)
general appearance prior to being exposed to the weather

Rusteel Plus™ is an ideal design for a historic, weathered look. Rusteel Plus™ is best suited for dryer, less humid environments. Rusteel Plus™ has no metallic coating and offers no warranty. The designer should be aware of rust runoff on decks and concrete without gutter protection or separation. Rusteel Plus™ meets ASTM A606-4. Type 4 has improved corrosion resistance when compared to carbon steel.

Rusteel Plus™ (A606)
potential look after weather exposure

These printed chips provide a close representation of the colors. Metal Samples are available upon request. Custom colors available. "Oil Canning" is an inherent characteristic of roof and wall products, and not a defect, which is not a cause for panel rejection.

PVDF is a fluoropolymer that is manufactured under the trademarked names Kynar 500® and Duranar (PPG). Paint finishes containing a minimum 70% PVDF resin meet the high-performance weathering criteria established by the American Architectural Manufacturing Association and are allowed to carry the Kynar500® trademarked name. ZINCALUME® & ZINCALUME® Plus are registered trademarks of Bluescope Ltd. Galvalume® is a registered trademark of BIEC International, Inc. Vintage® is a registered trademark of Steelscape, Inc. Kynar® and Kynar 500® is a registered trademarks of Arkema, Inc.
